POTOMAC FRUIT GROWERS' ASSOCIATION.—This association held a meeting in Washington yesterday. Four varieties of peaches were presented, a basket of Kitting blackberries and three varieties of apples; a schedule of prizes for the proposed exhibition in September, and rules for the same, were presented. Messrs. John Loellegar, James Watt, and John W. Trook were elected members. John B. Claggett presented four varieties of peaches, four of apples and two of blackberries. C. Gillingham presented two varieties of apples, two of peaches and three of pears. T. Taylor presented a specimen of brounphie fertilizer, (poudrette), and addressed the meeting in reference to the article, stating that in Norfolk the night soil is dumped in the sea, and is a nuisance; in Washington it had been no less a nuisance, but it could be made a mine of wealth. Mr. Curtis spoke briefly of the want of phosphates, which in some parts of the country has resulted in animals being deficient in limb, endorsing Mr. Taylor's views, and speaking of the importance of those who cultivate the land paying attention to phosphates. Messrs. King, Claggett, Munsion, Gillingham and Howland were appointed to examine the specimens of fruit. Mr. Barnabas Bryan read an essay on the cultivation and best varieties of the strawberry. The subject of annual fair in September was taken up and indefinitely postponed. Mr. King suggested that more attention be paid to wine and fruits, and that samples be brought to the meeting; whereupon Mr. Amidon inquired if the permission could not be granted on our tame fruits, and was answered that the experiment had been tried, but thus far had only met with partial success. The ladies were well filled with many fine fruits. The general opinion of the peach this year was that it was behind the average yield in quality at least.

THE LONG BRIDGE.—It is understood that the plan for a bridge across the Potomac, in place of what is now known as the Long Bridge, which will be built by the Pennsylvania Central Railroad Company, will be one of the finest structures in the country. Carriages, wagons and foot passengers will pass underneath the railroad track, which must be at a considerable elevation to avoid the steep grade now found on the Washington side along Maryland Avenue. The present causeway is to be removed, which will not only leave the channel unimpeded, but will cause the deposits now existing just above it to be washed away, the present principal cause of the malaria which settles upon many portions of Washington city, causing ague and fever. The Long Bridge, for the right of which Congress was asked an appropriation of \$15,000, has been put in command for travel by the P. C. Railroad Company at an expense of less than \$1,500—a good commentary upon the difference of cost when money is to come out of a private pocket instead of Uncle Sam's. The repairs were completed under the supervision of H. K. Bradshaw of this city. All other railroad companies are to have the use of the bridge, if desired, upon paying equitable rates to the Pennsylvania Central.

RIVER RESORTS.—The Washington correspondent of the Richmond Journal says the Potomac is a health-giver, and the river god has many devotees. The principal shrines are at Marshall Hall, just opposite the White House, Glymont, Piney Point, and Blackstone's island. Never have there been more excursions, and the "excursions" are always the most happy, dancy, chatty, companionable people alive! We have trips every day in the week; Sunday trips, afternoon trips, night trips—varied enough to suit every caprice and every pocket. The "Wassaret," the "City of Alexandria," and the "City of Washington" are splendid boats, and their managers, their President (S. S. Harrison), so well known in Richmond, and Captain (Gedney), know precisely how to cater to the public in the steamboat line. Mr. Howison, sometime ago, inaugurated afternoon trips for infants and small children, at a nominal rate. For this he has proven himself a public benefactor. Hundreds of little children, whose parents are unable to send them to the seashore or the mountains, are thus enabled to "get the pure air," and thus many summer ailments are ward off or remedied. The "Lady of the Lake," too, is a magnificent boat and her owners are pushing things.

DOGS.—The five hundred dog medals purchased by the Auditor for the protection of the dogs of the city having been exhausted, another supply has been ordered. The dog cart and the dog catchers continue their round, and the fatal net is thrown around any unlucky cur caught away from home without the necessary check and muzzle. The pen at the Poor's House is now full to repletion of the unhappy innocents, whose slaughter will commence to-night. But two of the whole number confined there have as yet been redeemed.

DROWNED.—Austie T. Palmer, aged seven years and eight months, son of Captain John Palmer of this city, accidentally fell overboard from his father's vessel at Georgetown, about half past two o'clock yesterday evening, and was drowned. His body was recovered soon afterwards, and was buried from the residence of his father, lower end of Duke street, at 1 o'clock this evening.

FAIRFAX AGRICULTURAL SOCIETY.—The annual meeting of the Fairfax County Agricultural Society will be held at the Court House on Saturday next.

LOCAL BREVITIES.—Gentlemen from the neighborhood of Salem represent the cattle disease to be prevailing to an alarming extent in that neighborhood.

The Rev. Mr. Bishop, pastor of the new German Lutheran Church in this city, has arrived here, and will assume charge of his congregation on Sunday next.

A large coal schooner, light, bound up, got aground on the flats below Jones's Point last night, and is still hard and fast.

Two loaded boats arrived up this morning, but went on by to Georgetown.

Mrs. Samuel Jefferson died very suddenly last night at her residence on Gibson street, near Fairfax.

Fine rock and perch are now caught in abundance just below Glymont.

Many persons are absent from the city, visiting the various watering places.

The August term of the Corporation Court will commence on Monday next.

It was the porter of Mr. Wm. Recker who was arrested yesterday on the charge of stealing a bride, but discharged, and not the porter of Mr. P. Recker as stated in yesterday's Gazette.

Another attempt will be made to night to organize a meeting of the Third Ward Radicals.

Among the clerks recently appointed in the Census Bureau is Col. D. F. Deane, of Fairfax county, Va.

POLICE REPORT.—So many complaints have of late been made of the depredations committed by the goats and geese, that the police have been instructed to catch and detain, until ransomed, all animals of these species found at large within the corporation limits. The ransom for a goat will be \$2.

A woman who followed her husband to Vinegar Hill, last night, to induce him to return home, failing to succeed in her effort, was attacked with fits, but the bystanders being unable to procure a stretcher for her, upon which to carry her home, she got up and walked there unaided—accompanied, however, by her husband who had been thought to be dead.

MAJESTY'S OFFICE.—W. L. Mitchell, for forging and obtaining money under false pretences, was, in default of bail, committed to jail for further examination.

George Davis and Lydia Curtis, colored, arrested in the 4th Ward for disorderly conduct, were discharged with a reprimand.

Louisa Boston, colored, for disorderly conduct at Newtown, was fined and discharged.

Fred. Hill, a colored apprentice, for running off from his mistress, was discharged upon the promise of future good behavior.

There will be a regular monthly meeting of the Relief Hook and Ladder Co., this evening (Thursday) at 8 o'clock.

Stock Over Issue in Baltimore.—There were rumors yesterday of an over issue of the stock of the North Western Virginia railroad, commonly known as the Parkersburg branch of the E. & O. R. R., leased and worked by the latter company. The over issue is stated in the morning papers to the amount of \$300,000, made by the secretary of the company, John L. Crawford, who has resigned his office. The amount at which the over issue is fixed is a supposition merely, as no statement has been made by Crawford and the directors of the road have not concluded their examination. The over issue is all hypothecated in Baltimore at about \$15 on the share, the par value of which is \$50. Mr. Crawford, the secretary of the company, was for many years confidential clerk in the banking house of Alexander Brown & Sons, Ex-Senator Van Winkle of W. Va., President of the company, it is stated, entrusted the secretary with blank certificates of stock bearing his signature.

Shooting Affray—Riot.—Last night James W. Breen, entered the office occupied by W. A. Sandick, and attempted to shoot him. Sandick drew a pistol and fired three shots, one taking effect in the head and one in the body of Breen.

It is probable that he will die. The cause of the attempt is unknown as Breen was a stranger to Sandick.

SPECIAL NOTICES.

The Life Sustaining Principle.—The vital and the muscular systems are entirely distinct from each other. A man may have the brawn of a Hercules, but if he is deficient in vital energy he will not wear as well, or last as long, or be as healthy and happy while he does last, as the man of ordinary or even slender build, who possesses a larger share of the animating principle. One of the greatest remedies for this is the Life Sustaining Principle. It is a tonic, it is a stimulant, it is a restorative, it is a life-giver. It is a tonic, it is a stimulant, it is a restorative, it is a life-giver. It is a tonic, it is a stimulant, it is a restorative, it is a life-giver.

Loss of Appetite and Debility.—Of all the tonic preparations now in market, we know of none equal to the celebrated "GARDNER'S NATIVE WINE BITTERS," and for persons subject to chills and fevers there is nothing to compare with these Bitters as a restorative and preventive. They are also the best tonic and appetizer in existence, and contain no alcohol, being made of the pure California white wine, and they are recommended by all who have used them.

The Indispensable Remedy.—The most reliable and sure cure for malarial fevers is unquestionably the celebrated "GARDNER'S NATIVE WINE BITTERS," and for persons subject to chills and fevers there is nothing to compare with these Bitters as a restorative and preventive. They are also the best tonic and appetizer in existence, and contain no alcohol, being made of the pure California white wine, and they are recommended by all who have used them.

W. B. WADDY.—U. S. COMMISSIONER, ATTORNEY AND COUNSELLOR IN BANKRUPTCY.

Congress having just amended the Bankruptcy law so that nearly all parties can be discharged from their debts under the fifty per cent clause, we call, another opportunity to secure the benefits of this most effective and permanent measure of relief. The above-named will make bankrupt business a specialty; will procure discharges on the most moderate terms, and in the shortest time. In that line of business we cannot fail to be satisfactory. Being U. S. Commissioner, he will endeavor to visit the different counties on court days, and thus save parties the trouble and expense of several trips to Alexandria in beginning and proceeding with their cases. Discharges will be obtained hereafter by Register Hill as promptly as in Richmond or elsewhere, and at much less expense to parties. It may be added that the Bankruptcy act, in connection with the Homestead exemption, which it is now well known will be secured to the bankrupt under the bankruptcy law, is the only real relief now offered to parties struggling in the hopeless bondage of old debts. Address personally or by letter at No. 12 south Royal street, Alexandria. [sign] J. B. R.
